

# Industrial Conical Bottom Tank

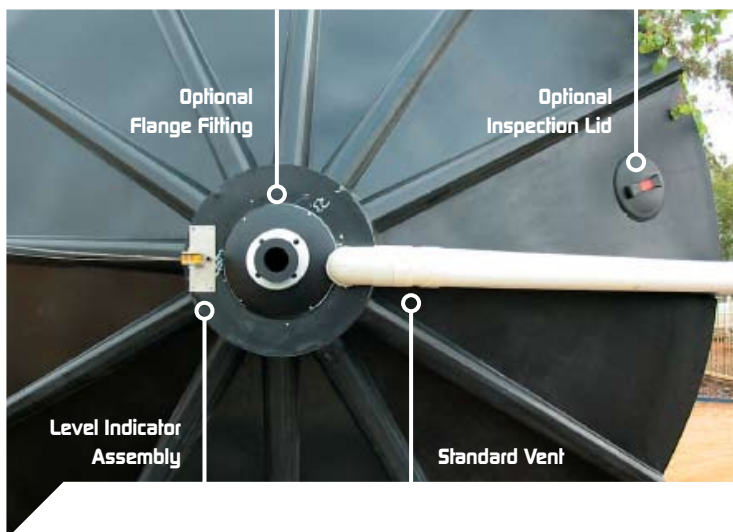

Clark Industrial has a product that no one else can match – the 30 m<sup>3</sup> Conical Bottom Storage Tank. These tanks are the most flexible industrial storage vessels on the market.

The conical bottom storage tank is unique in its versatility to suit a vast range of industrial applications. The tanks are manufactured to handle specific gravities of SG 1 up to SG 1.5 and come complete with hot dip galvanised stands. They can be fitted out to your specifications by our team of expert tradespeople.

Clark Industrial supplies industrial conical bottom tanks for water treatment plants, settling tanks, liquid fertiliser storage and molasses storage, to name a few applications ideal for these tanks. The industrial conical bottom tank is fast becoming a leading choice in industrial storage.
